Western Michigan University is a dynamic, student-centered research university with an enrollment of nearly 25,000. WMU is focused on delivering high-quality undergraduate instruction, advancing its growing graduate division and fostering significant research activities.

The Carnegie Foundation for the Advancement of Teaching places WMU among the 76 public institutions in the nation designated as research universities with high research activity. U.S. News & World Report’s annual ranking of American colleges and universities includes WMU as one of the nation’s top-100 public universities.

Undergraduate students at WMU may choose from 141 program offerings while graduate students may select from 66 master’s, one specialist and 29 doctoral programs. A number of programs at both the undergraduate and graduate levels have attained national recognition. Also enriching the quality of campus life are more than 200 registered student organizations and a full array of NCAA Division IA intercollegiate athletic teams.

The University’s commitment to the discovery and dissemination of new knowledge and insight has resulted in initiatives that reward faculty and student research, scholarship and creative activity. In a typical year, WMU faculty and staff conduct $30 to $40 million in externally funded research on topics ranging from nuclear physics and specialized education to developing technology that enables more efficient flight and more environmentally friendly public transportation. Instructional programs are designed to increase students’ capacity for learning and service to society, as well as meet the needs of an increasingly diverse student population.

WMU is Michigan’s fourth largest higher education institution, attracting a diverse and culturally rich student body from across the United States and some 80 other countries. Its nearly 900 full-time faculty members have been trained at some of the world’s finest institutions and they bring to the University a global perspective that enhances the learning environment.

WMU’s campuses encompass more than 1,200 acres and 151 buildings. Its main campus, close to downtown Kalamazoo, features some of the finest instructional and performance facilities in the Midwest as well as residence halls equipped to house more than 5,700 students. The University’s College of Engineering and Applied Sciences and the Business Technology and Research Park are located three miles away on the Parkview Campus, while its nationally recognized College of Aviation is based at the W.K. Kellogg Airport in nearby Battle Creek. Among WMU’s newest instructional centers is the 200,000-square-foot College of Health and Human Services building, a state-of-the-art facility that houses award-winning programs and features specialized labs for such areas as biofeedback, orthotics and motion research.

The University also has an off-campus study site in Kalamazoo and eight branch campuses around the state, all of which provide primarily graduate and professional education. Branch campuses are located in Battle Creek, Benton Harbor-St. Joseph, Grand Rapids, Lansing, Muskegon-Holland, South Haven and Traverse City.

Founded in 1903, WMU rapidly grew from a regional teachers college to an internationally regarded institution of higher education. What was once Western Michigan College became Western Michigan University in 1957, when the state designated it as the fourth public university in Michigan.

POINTS OF PRIDE

• The Carnegie Foundation for the Advancement of Teaching places WMU among the 76 public institutions in the nation designated as universities with high research activity.
• In its annual ranking of the nation’s 4,000 colleges and universities, U.S. News & World Report consistently lists WMU as one of the nation’s top 100 public universities.
• WMU is one of only 97 public universities in the United States to be granted its own chapter of Phi Beta Kappa, the nation’s most prestigious academic honor society.
• WMU’s Lee Honors College, one of the nation’s first honors colleges, serves as the scholarly home to more than 1,000 academically talented students. It has graduated winners of the most prestigious academic awards, including Truman, Goldwater, Udall, Fulbright and Gates Cambridge scholarships.
• U.S. News & World Report ranks WMU’s programs in occupational therapy, physician assistant and speech pathology among the top 50 in the nation.
• WMU’s Haworth College of Business is one of the 20 largest undergraduate business programs in the United States.
• For more than a dozen years, WMU jazz studies students have kept the School of Music among the top three schools in the nation for the number of awards received from Down Beat magazine.
• The new College of Engineering and Applied Sciences building is located on the 205-acre Parkview Campus, which is also the site of the University’s Business Technology and Research Park, one of the 11 areas designated by the state as a Michigan SmartZone for economic development.
• The College of Aviation, located at W.K. Kellogg Airport in Battle Creek, occupies 95,000 square feet on 20 acres, and it is one of the largest and most innovative aviation programs in the nation.
• Construction was completed in 2006 on WMU’s new $28.5 million chemistry building. The 83,000-square-foot facility is complete with high-tech lecture halls and labs, energy-efficient and interactive laboratories.
• The University is known worldwide as a center for medieval studies, and each May some 3,000 medievists from every state and 25 nations converge on WMU’s campus for the annual International Congress on Medieval Studies, the largest and most comprehensive academic gathering in the world for those who focus on the Middle Ages.
• WMU ranks first in Michigan and second in the nation in the use of wireless computing technology on a university campus, according to a 2005 study conducted by Intel.
• The University’s Medallion Scholarship program is one of the largest merit-based programs in the nation. Each spring, some 600 to 800 of the nation’s top high school seniors travel to WMU’s campus to compete for one of its $40,000 awards.
• WMU’s Department of Theatre is widely recognized as one of the nation’s best undergraduate programs and is a regular winner of American College Theatre Festival awards.
• Sunseeker, the solar reactor of the College of Engineering and Applied Sciences, finished among the top six in each of the past two National Solar Challenges and earned the award for best design in both races.
• The American Association of Colleges for Teacher Education consistently ranks WMU’s College of Education among the nation’s top 10 producers of professional educators. In 2004, WMU won the Association of Teacher Educators Distinguished Program in Teacher Education award.
• WMU’s Department of Paper Engineering, Chemical Engineering and Imaging is the only program in the world to have, on a single campus, pilot plants that can take a project from paper pulp to the printed page. The department was first in the nation to have a high-speed paper coater available for non-affiliated research.
• WMU’s Haworth College of Business is among 25 percent of U.S. business schools that are accredited at both the undergraduate and graduate levels. It is among a select 10 percent of U.S. business schools that have additional specialized accreditation for their accounting programs.
• WMU’s internationally renowned College of Health and Human Services is the highest NIH-designated research institute in the nation designated as universities with high research activity.
• The SkyBroncos precision flight team from the College of Aviation won the 1983, 1998 and 2002 National Intercollegiate Flying Association national championships and has placed among the top three in national competition 15 of the past 16 years.
• WMU’s graduate program in engineering management was named the best in the nation by the American Society for Engineering Management, while the University’s undergraduate program was ranked among the top three.
• WMU’s Evaluation Center was the first of its kind and remains one of the top such centers in the world. Among its clients are the U.S. Marine Corps; U.S. Department of Education; National Science Foundation; several state departments of education; and the Alger, Heifer, Kellogg and MacArthur foundations.
A LOOK ACROSS CAMPUS

With an enrollment of nearly 25,000, Western Michigan University is one of the 100 largest universities in the nation. WMU began offering extension classes in 1905, just two years after its founding. Today, the University is home to eight branch campuses across Michigan.

WMU offers nationally and internationally recognized graduate programs in a wide range of disciplines, from physics and speech pathology to creative writing and medieval studies.

Nearly 5,000 graduate students study and conduct research at WMU. They are welcomed into faculty labs and studios, and participate in groundbreaking work being done in partnership with business, industry and government across Michigan and around the globe. Graduate students have nearly 100 degree-granting programs to choose from, including 29 offered at the doctoral level and 66 at the master’s level. Several graduate programs are rated as among the best of their kind in the nation.

WMU ranks first in Michigan and second in the nation in the use of wireless computing technology on a university campus, according to a 2005 study conducted by Intel.

Every season, screaming WMU students pack Waldo Stadium, Read Fieldhouse and Lawson Ice Arena for the excitement of Bronco Athletics.
MILLER AUDITORIUM

Every year thousands of students return to campus to not only continue their education and pursue a degree but to also resume their residence in the City of Kalamazoo, a city that welcomes each and every Bronco with open arms.

Kalamazoo was recently named a “Cool City” by Governor Jennifer Granholm. These cities are recognized for their efforts to attract people and create jobs.

Sleeping Beauty, which ran at Miller Auditorium.

Miller Auditorium is ranked as one of the top-10 performing arts facilities in the United States, and is the third largest theatre in Michigan. The mission of the auditorium is to enhance and enrich the culture development and awareness of the University and its constituents in the region by offering cost-effective, diversified and superior cultural experiences, delivered with the highest level of service.

The Arcadia Festival downtown Kalamazoo is a huge summer attraction.

Kalamazoo was recently named a “Cool City” by Governor Jennifer Granholm. These cities are recognized for their efforts to attract people and create jobs.

The Arcadia Festival downtown Kalamazoo is a huge summer attraction.

Christmas time downtown Kalamazoo at Bronson Park is nothing short of magnificent.

Welcome Back WMU Students
Every season the Western Michigan University football team goes out into the community and gives back to the organizations that support Bronco athletics and its student-athletes year in and year out. Each member of the football team is required to give five hours per week to community service and in 2006, the Broncos compiled nearly 2,500 hours.

WMU participates in an assorted number of community service activities, from visiting hospitals to spending the day at an elementary school to assisting students with homework.

This past spring, Western Michigan football opened the doors to the Seelye Athletic Center for a youth clinic. Hundreds of children from in and around the Kalamazoo area attended. The players ran the kids through drills and worked on some of the finer skills of the game. The coaches each ran a station along with the players in their unit. The children ran through tackling dummies, worked on the mechanics of the throw and showed their explosive power coming off the line against the WMU offensive line.

This past summer, football players took part in the Rocket Football Camp held by the Lakeview Youth Association (LYA), leaving an impression on both the children participating and the leaders of the group who ran the event.

Eight Broncos took part in the day, including Tim Hiller, Nick Varcadipane, Robbie Krutilla, Jesse Parsley, Keith Schultz and Matt Williams, Jamelle Murray and Herb Martin.

Community service is not just for the student-athletes. Our coaches also get into the mix. Head coach Bill Cubit, along with head men’s basketball coach Steve Hawkins, competed at Homer Stryker Field in the Kalamazoo’s Finest Softball Game. Cubit and Hawkins played on a team of local celebrities against a team of local law enforcement officers in a game to support the Douglass Community Association’s Youth Services Department.

“It was a lot of fun, especially since I haven’t played softball in about 20 years,” Cubit said. “I was just hoping to not strike out or make any errors, plus it’s just good to be out here to support a fantastic cause.”

A group of six Bronco football players donated their time as celebrity chefs at Mongolian BBQ in Kalamazoo during an event to benefit AM-BUCS (American Business Clubs).

Donna Whitcomb, AMBUCS district governor for the Battle Creek/Kalamazoo Region, worked closely with the Bronco football office to put this event together and worked first hand with the WMU volunteers.

“All of the football members were very gracious, helpful and eager to do whatever they could to help make the event a success. Four of the players went to work on the grill, while the other two went around to the attendees and explained the organization. At one point, even some of their teammates came in and mentioned how they wish they would have signed up to participate as well,” praised Whitcomb.

The six Broncos that did participate were Robbie Krutilla, Matt Williams, E.J. Biggers, Louis Delmas, Nic Saad and James Blair.

Western Michigan also assisted the Community Healing Center of Kalamazoo and Carrabba’s Italian Grill at the fundraising dinner for Roofsit 2007. Brian Marsters, owner and proprietor of Carrabba’s had nothing but great things to say about WMU’s involvement.

“On behalf of the Community Healing Center of Kalamazoo and Carrabba’s Italian Grill, we want to thank all of the Broncos that supported the fundraising dinner for Roofsit 2007. The even’ts proceeds go entirely to the charity and this is possible because of the value placed on character and civi responsibility by the WMU Football Program, specifically Nancy and Bill Cubit, who give us far more than exciting football in the Fall. They give personal time to our community and its charities.”
WESTERN MICHIGAN UNIVERSITY
FOOTBALL STRENGTH AND CONDITIONING PHILOSOPHY

The Western Michigan University Football Strength and Conditioning Program trains each football player with the purpose that what we do in our training will carry over to the game of football. In the weightroom we combine functional exercises with effective set and repetition schemes. Out on the field the running program emphasizes speed development, appropriate functional conditioning, and agilities that are both football specific and position specific.

WESTERN MICHIGAN UNIVERSITY
FOOTBALL STRENGTH AND CONDITIONING MEASURES OF SUCCESS

When a young man enters our strength and conditioning program, we want to challenge him with goals that will help him become the football player he knew he could be, as well as the football player he had no idea he could become. Then when he looks back at his playing career here at Western Michigan University he can say that before every season, game, and play he was physically and mentally prepared – the strength and conditioning program is a success.

Nate Peoples (pictured) to the left), who had worked with head coach Bill Cubit at Stanford, enters his third season as the football program’s strength & conditioning coach.
WESTERN MICHIGAN ATHLETIC FACILITIES

The Donald J. Seeley Athletic Center, completed in 2003, is a state-of-the-art indoor facility that is used for not only football practice but also golf, soccer, baseball and softball practice. The three-story complex also houses offices for many of the WMU athletic programs as well as meeting and banquet rooms for any related function.

The Western Michigan football team room, located outside the locker room in the Bill Brown Center, is where the Broncos prepare for each opponent weekly. The coaches and team review film and go over goals in this space that splits into two sections so defense and offense are able to meet simultaneously. The room also serves as the WMU football post-game press conference facility.

The Ellis Athletic Academic Advising Center, located on the second floor of Read Fieldhouse, is open for all Western Michigan student-athletes. It is a place that is staffed with athletic department staff devoted to the academic excellence of our Broncos. The center is equipped with working stations and computer labs. Additional space across the hall was completed during the Fall of 2006.

Once the work has been completed in the training facilities, meeting rooms and academic centers, the Western Michigan football program puts theory into practice at Waldo Stadium. The WMU football stadium, opened in 1939, installed FieldTurf prior to the 2006 season. The upgrade made the stadium surface safer for WMU and visiting student-athletes during competition.
ATHLETIC DIRECTOR - KATHY BEAUREGARD

Kathy Beauregard, the Director of Athletics at Western Michigan University, has been involved with the Broncos in several capacities over the course of the past 27 years. She is the second-longest serving athletic director in the Mid-American Conference.

Beauregard arrived in Kalamazoo as a coach before moving into administration and is entering her 10th season as mentor of one of the top programs in the MAC.

WMU athletic facilities have greatly improved under Beauregard’s leadership. The $8-million dollar Bill Brown Football Alumni Center and the $21-million Skeelee Athletic Indoor Center have benefitted numerous sports teams and provide top-notch facilities for Bronco student-athletes. The locker rooms at Lawson Ice Arena were renovated and completed over the past year and the department continues to raise funds for the Hynes Field Renovation Project. WMU is in the midst of building a two million dollar state of the art facility and Field Turf was also installed at Waldo Stadium during the Summer of 2006.

Heavily involved in her profession, Beauregard assumed the chair position of the NCAA Olympic Sports Liaison Committee in 2001, a position which she held for two years. She represented WMU as a member of the NCAA Championships Cabinet and NCAA Football Bowl Certification Committee and currently serves on the NCAA Diversity and Inclusion Committee.

This past year men’s and women’s tennis not only repeated as MAC Tournament champions but captured regular season titles as well. Both Dave Morin and Betsy Kuhle earned MAC Coach of the Year honors. The this past year men’s and women’s tennis not only repeated as MAC Tournament champions but captured regular season titles as well. Both Dave Morin and Betsy Kuhle earned MAC Coach of the Year honors. The program in the MAC.

WMU boasted three NCAA statistical champions in five categories — Ameer Ismail (FB - sacks and tackles for loss), Carrie Moore (WBB - points per game) and Mark Lettsu (HOKEY - freshman scoring and short-handed goals).

Western Michigan continued to pursue excellence in the classroom in 2006-07 as 26 student-athletes in 14 sports earned Academic All-MAC status. WMU had five of its programs honored as being in the top-10 percent in their respective sport in the announcement for their excellence in the classroom over the years identified in the most recent NCAA, baseball, men’s basketball, gymnastics, women’s tennis and volleyball.

The Broncos boasted five academic all-district selections and a pair of academic all-Americans in Joe Reitz and Carrie Moore.

Moore and Ismail earned All-America status in their respective sports with Moore receiving honorable mention for Kodak All-American and Ismail earning Second Team AP All-American.

In 2005-06, Beauregard oversaw a department that captured the Jacoby Cup Trophy awarded to the top women’s program in the MAC based on sports standings. WMU has now won the Jacoby and Reese (men’s overall sports award) trophies during Beauregard’s tenure. The Broncos garnered three regular season titles — gymnastics, softball, and women’s tennis and two MAC Tournament titles — gymnastics and women’s tennis. Under Beauregard’s direction, WMU also won its 100th MAC title all-time in 2005-06.

The 2004-05 athletic campaign continued what has become common place at Western Michigan. Team and individual success began in the fall and continued through the spring, highlighted by a MAC Championship in women’s tennis. The strength of the women’s programs as a group allowed WMU to finish second in the Jacoby Cup.

Along with four MAC titles (men’s basketball, men’s and women’s soccer and men’s tennis) in 2003-04, the Broncos also enjoyed an increased level of success in the classroom. WMU’s graduation rate of 83 percent in 2003 ranked eighth nationally and featured a program grade point average of nearly 3.00.

On the playing field in 2002-03, the athletics campaign was highlighted by a pair of conference titles in women’s basketball and softball. The men’s basketball team also made a postseason appearance, competing in the National Invitation Tournament. Postseason appearances by the WMU football, volleyball and men’s tennis team highlighted the program’s 2000-01 athletic competition.

The 1999-2000 campaign was highlighted by the football team’s West Division title and trip to the MAC Championship. The women’s tennis squad captured the MAC Tourney title and advanced to the NCAA Tournament for the second-straight year and the women’s basketball squad made its second-consecutive appearance in the WNT.

In just her second year (1998-99), Beauregard provided support which helped the Bronco men’s athletic squads jump from 10th to first place in the Reese Cup standings, giving Western Michigan a share of its first all-sports trophy in 17 years.

Previously the senior associate athletic director (1993-97), she supervised all revenue sports, the University’s compliance with NCAA rules, academic services, student-athlete welfare, and athletic marketing and communications.

Beauregard initially came to WMU in 1979 as head women’s gymnastics coach. In nine seasons (1980-88), she produced two MAC title teams and was twice named the conference’s coach of the year.

Beauregard has been active in numerous community service organizations, including Kalamazoo Rotary, the American Heart Association, Big Brothers/Big Sisters and the Glowing Embers Girl Scouts Council.

Honored by numerous organizations throughout her career, Beauregard was awarded both the Woman of Achievement Award (YWCA) and Athena Award (Kalamazoo Chamber of Commerce) in 2002.

Beauregard is a native of Kalamazoo and graduate of Loy Norrix High School. She earned a bachelor’s degree from Hope College in 1979 and a master’s degree from WMU in 1981.

In 2000, Beauregard received the Hope College Distinguished Alumni Award from her alma mater. She and husband, Rick, have a 16-year-old son, Brad. Rick retired from Kalamazoo Public Schools after 32 years of service and began Beauregard Home Services in the Fall of 2006.

Dr. John M. Dunn became the eighth president of Western Michigan University on July 1, 2007.

He was appointed to the post by the WMU Board of Trustees in April, following a nationwide search. Prior to coming to WMU, Dunn served as interim chancellor at Southern Illinois University Carbondale. Before accepting that appointment, he held the position of provost and vice chancellor at SIUC.

An educator for more than 30 years, Dunn was dean of the University of Utah’s College of Health before moving to SIUC, holding that post from 1995 to 2002. Before that, he was at Oregon State University for 20 years, last serving as associate provost there from 1990 to 1995. His earlier positions at Oregon State included dean of Health and Human Performance, chair of the Department of Exercise and Sport Science and director of the university’s Special Physical and Motor Fitness Clinic.

Internationally known for his research and writing about the long-term health of individuals with disabilities, Dunn is the author of more than 50 professional papers and book chapters. He is a past president of the Research Consortium of the American Alliance for Health Physical Education, Recreation and Dance; past editor of Quest, a professional publication for kinesiology scholars; and president-elect of the American Academy of Kinesiology and Physical Education.

Dunn, who began his teaching at the University of Connecticut in 1972, earned a bachelor’s and master’s degree from Northern Illinois University in 1967 and 1969, respectively. He earned his doctoral degree in physical education from Brigham Young University in 1972.

WESTERN MICHIGAN ATHLETIC MEDIA RELATIONS

MAT KANAN
DIRECTOR OF MEDIA RELATIONS/FOOTBALL SID
Ohio, 1997
Third Season
269-387-4125/269-998-2259
mat.kanan@wmich.edu

KRISTIN KEIRNS
ASSISTANT DIRECTOR OF MEDIA RELATIONS
Heidelberg, 2005
Second Season
269-387-4123
kristin.keirns@wmich.edu

MATT HOLMES
ASSOCIATE DIRECTOR OF MEDIA RELATIONS
Indianapolis, 2002
Third Season
269-387-3168
matt.holmes@wmich.edu

PRACTICES
Players and coaches are available for interviews after practice, Monday through Wednesday. Bill Cubit is available after practice Monday through Thursday. If there needs to be a special request made, please contact Mat Kanan at 269-387-4125 or 269-998-2259.

Media wishing to conduct interviews should call ahead to Mat Kanan at 269 387-4125 or 269-998-2259 and arrive 30-45 minutes before practice ends.

Please observe the following rules when attending practices:
• Photo journalists must shoot from along the sidelines, keeping a safe distance from players
• Shooting team formations is prohibited
• Do not record audio except when an interview is under way

CREDENTIALS
Requests for single game and season media credentials should be directed to Mat Kanan at 269-387-4125 or 269-998-2259.

Seating in the Waldo Press Box is limited, priority will be given to media on deadline.

PHONE LINES
Visiting commercial radio stations will receive a complimentary phone line. 269-387-2266. To order an additional line, contact Dannie Alexander at 269-387-3346.

A number of phones are available in the press box for reporters filing stories. Phones can be accessed by using a calling card. The press box phone numbers are 269-387-3064 and 269-387-3065.

GAME DAY
Media parking lots are located at the top of Oliver Street hill. Look for the lot number on your parking pass.

A complimentary pre-game meal will be served by the Radisson Plaza Hotel.

Photographers are allowed to shoot along the sidelines (but not in the bench area) and in the end zones. Passes must be worn at all times.

Bronco players and coach Bill Cubit will take part in a post-game news conference in the team meeting room after the visiting team is finished with its interviews. The WMU locker room is closed to the media at all times. Requested players will be brought outside the locker room for interviews.

A post-game statistical package will be made available to all working media upon the completion of the game and once all statistics have been finalized. Game notes and post-game quotes will be made available to the media and visiting SIDs as time permits.

NEWS CONFERENCES
Bill Cubit addresses the media at an 11:00 a.m., news conference every Tuesday during the season at Ziosos located on the first floor of the Radisson Plaza Hotel.

MAC COACHES CALL
Bill Cubit participates in the Mid-American Conference Teleconference every Monday during the season from 9:30-9:38 a.m. To listen in, call 785-832-1508.

A replay of the conference call is available Monday evenings at 402-530-0420 (West Division) or 402-530-0419 (East Division).

RADIO/TELEVISION PROGRAMS
Cubit appears on “Bronco Review,” a weekly half-hour television show devoted to Bronco Athletics. “Bronco Review” is slotted for Thursdays at 7:30 p.m. on WLLA TV. The show replays on Saturdays at 10 a.m.

Cubit also joins Robin Hook on “Bronco Review,” every Thursday evening (6-7 p.m.) from Old Burdicks Grill. The show airs live on Kalamazoo’s ESPN 1660 AM.

WEB SITE
The official WMU Athletic Web Site contains information on all 16 varsity sports. Each sport’s home page contains the latest news releases, statistics, roster, and schedule.

It is necessary to have Adobe Acrobat Reader installed on your computer to view the PDF formatted news releases.

All Bronco football games can be heard live on the web by accessing the WMU home page at www.wmubroncos.com.

All Bronco home games can be seen live on the web by accessing the WMU home page at www.wmubroncos.com.

MAC NEWS MEDIA ASSOCIATION (MNMA)
A media organization supporting the MAC since the 1950s, the MAC News Media Association is a key component to the publicity efforts of local schools and the league office.

The MNMA meets three times yearly at Football Media Day, Basketball Media Day and the MAC Basketball Tournament. Members of the MNMA also vote on postseason awards in football and men’s and women’s basketball and participate in preseason polls.

To join the MNMA please contact Secretary-Treasurer Angie Renninger at 513-529-6239 or renningar@muohio.edu. Information can also be obtained at the official website at www.mnma.net.
